

The Director,
Regional Centre for Energy and Environmental Sustainability
University of Energy and Natural Resources
Sunyani

Dear Sir,

Subject: Certification of Building Completion to Required Specifications

I am writing to certify that the construction of the RCEES Building Complex at the Sunyani Campus of the University of Energy and Natural Resources has been completed per the required specifications and standards. This certification attests that all aspects of the project, including materials, workmanship, and structural integrity, meet or exceed the criteria outlined in the project plans and specifications.

The key points of compliance are as follows:

- **Structural Integrity:** The building has been constructed using approved materials and methods, ensuring stability and durability.
- **Safety Standards:** All safety protocols and regulations have been strictly followed, and the building meets all local, state, and federal safety requirements.
- **Code Compliance:** The construction follows all applicable building codes and zoning laws.
- **Quality Assurance:** Comprehensive inspections and quality control measures were implemented throughout construction to maintain the highest standards.
- **Functional Specifications:** The building's functionality aligns with the intended use and design specifications, ensuring all systems (electrical, plumbing, HVAC, etc.) operate effectively.

This certification is based on thorough inspections and the review of relevant documentation. The building has the following facilities:

Ground Floor:

- Main entrance
- Security post
- Information desk
- Fire exits
- Lecture room
- Two laboratories
- Auditorium
- Administration area with five offices
- Kitchenette
- Two seminar rooms
- Power room
- Washrooms (male, female, disability)
- Inner court
- Service room

First Floor:
